PROCUREMENT UPDATE

Penetration Testing

The NW SOC is currently reviewing penetration testing proposals and quotes received from vendors. This initiative will help support regional cybersecurity assessments and inform procurement decisions expected later this year.

GOVERNANCE INITIATIVES

P&P Framework

The NW SOC is reviewing policies, procedures, and templates across member organizations to support the development of a regional governance and documentation framework. This initiative aims to strengthen cybersecurity program maturity and promote regional alignment.

Risk Register

The NW SOC is developing a regional risk register to identify, assess, and monitor cybersecurity risks across member organizations. This supports consistent risk management, prioritization, and informed decision-making.

TOP VULNERABILITIES OF THE MONTH

FortiBleed 2026

Fortinet Credential Leak Campaign

CRITICAL

An active campaign has exposed credentials for more than 86,000 Fortinet devices worldwide, placing organizations at increased risk of unauthorized access. Site administrators should review exposed credentials, enable MFA, audit remote access configurations, and apply the latest security updates. Monitor authentication logs for suspicious activity. Microsoft 365 Copilot SearchLeak (CVE-2026-42824)

CVSS HIGH
7.5

Microsoft has disclosed a vulnerability that could allow attackers to exploit Microsoft 365 Copilot and access sensitive organizational information under certain conditions. Organizations should apply available mitigations, review Copilot permissions, enforce least-privilege access, and monitor activity for unusual behavior. [Read More](#)

Travel Trouble – Is Your Vacation the Real Deal?

INFOSEC IQ

Need to Know Newsletter – June 2026

This month's newsletter focuses on travel-related cyber threats, highlighting how AI-enabled scams, fake vacation rentals, phishing messages, and fraudulent travel services are putting travelers at greater risk. Learn practical tips to recognize common scams and stay safe while planning your vacation. [Read More](#)
